Sacks, Jennifer Kate

Most commonly known as NuJen. NuJen came doen to the forum at the beginning of the 1995 fall semester, drawn to the Open House by various flyers in search of intelligent life. She was designated New Jen to differentiate her from other Jens, which later transmogrified into NuJen.

She owned a car until the tragic events of the Boston Road Trip when Noel took a short cut to nirvana through the Telephone Pole of Allah. She was a cofounder of Bleacher Night, the first of many corruptive influences she had on Turtle and others. She officially brought Noel and Turtle on their first march of dimes, but in turnwas made a member of the Thursday club by Turtle.

She has dated almost every Forumite ("you want to go out?" "sure" "cool...ok I'm really sorry but it's just not working out, so we're going to have to break up" "sure") superficially. She has dated Noel, 1 of 2, Jeff Nagel, Blonde Eric, and Jason J. subficially. Her many adventures had led her to have the nickname 6 for a time.

She introduced the Forum to Dead Alive which led to her new nickname of Rat Monkey, and the Forum mantra "spank the Rat Monkey!"; as well as it's sequel starring violent, sexual, violently sexual, and sexually violent live action furies. She desired a change in name and was called Freakiepool for awhile, but today she is generally called just Jen or NuJen. Today she spends much of her time marching for dimes and Penguining campus.

She stands five feet and one inch short. Her hair changes dramatically from week to week. Her eyes are a medium to dark brown. Her skin is generally pale and fallow. Her attire consists generally of dark drab colours; she never wear dresses and is almost always accompanied by freakish accessories like combat boots, dog collar, wallet with multiple chains, black plastic rings and bracelets, and a Nosferatu in a coffin for a necklace.

She says her attitude is generally docile unless taunted (called cute). She is butch, and almost always in a chemically altered state of mind. She is apathetic, cynical, content. She has a naturally corruptive influence on anyone/thing in her presence. Her interests include Anthony Burgess novels, Good Industrial music (no NIN), good ska (no No Doubt), Malcom McDowell moves, Kafka, shopping, kicking small children who don't taste like chicken, really perverse japornimation (Legend of the Overfiend), and mind-altering substances.

Jen has many great quotes, none of which we can currently recollect due to our memory loss after spending quality time in her corruptive aura.

scavenger hunts

Schaffer, Craig S. [mail] [web] [altmail] [altmail2] [altmail3] [altmail4]

Known simply as Craig to 4Mites, or alternately as "that guy who never comes here anymore cause he is a loser." and 'craigs' on the IRC. Craig was brought down to the Forum by Tobie to meet her at the time boyfriend Turtle. He was immediately sucked in to the 4M. Turtle, Tobie, Craig, Adam, and Skip went through alternating stages of loving and hating each other over a period of time.

On his mythological pre-4M existance:

I was born in Cincinnati, Ohio on October 16th, 1974. Everything from that point until mid 1981 is all kind of a blur due to my unusual battle with alcoholism. But to be honest, after being released from the Betty Ford Clinic, I don't remember much because on my way home I was struck by a Greyhound bus. When I came out of the Coma in 1988, I fell in love for the first time. . . if you want to know anything more, ask me, or Turtle as the content has been censored by the FCC.

On College

I hate college.

On the 4M

This too would be a story I would not publish, as it is WAY too revealing about too many people I care about so this will not become a matter of written record...if you are a glutton for juicy details (I know I am), then ask me or Turtle... The Craig Legacy is quite an interesting ride....

Craig is blonde, has blue eyes, weighs [censored], and stands 6'2". He has three earring in his left ear. Favorites include the movies Toy Soldiers and The Lion King, he's only read one book since 8th grade (ask Turtle), music by Billy Joel, The Doobie Brothers, and Bonnie Tyler, and the television shows Roseanne, Law & Order, and all the various incarnations of Trek. smut drawer

Used to be a great re[^{sup-?}]pository of weird X-Rated books, often with an SF theme, but died down for a year and a half when TPTB threw it all out, then was resuscitated by Darin in the fall of 1996. Darin is an artist, as we all know, and one who often draws smut. His interesting and somewhat unique artwork prompted the recreation of the drawer, into which soon popped more books, some comics (usually animelike), and other materials.
